

A BETTER CHANCE | **60** YEARS

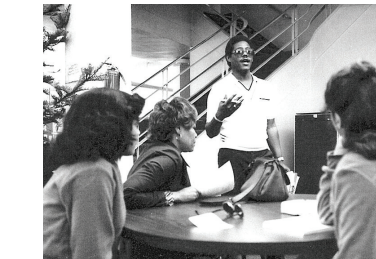

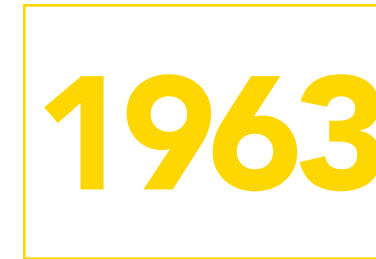

A BETTER CHANCE is the largest national organization of its kind changing the life trajectory of academically talented youth of color via access to rigorous educational opportunities for the last 60 years. Our mission is to increase substantially the number of well-educated young people of color who are capable of assuming positions of responsibility and leadership in American society. A Better Chance supports approximately 2,000 academically talented students annually at more than 200 of the nation's most rigorous and prestigious boarding, day, and public schools. Since 1963, A Better Chance has transformed more than 18,000 bright young people into our country's leaders in all sectors of industry, science, and the arts.
