

GO PROJECT

The GO Project was founded in 1968 by a committed group of volunteers who believed in a simple idea — that every public school student who is struggling academically can succeed if they are connected to the right resources. The GO Project intervenes at a crucial point in a child's early education to illuminate their potential. Through year-round programs, more than 700 students are equipped with the confidence and skills needed to perform at or above grade level, enroll in strong middle and high schools, graduate on time, and achieve college success.
